

10 Ways to Conserve Water

- ★ Regularly check your toilets, faucets and pipes for leaks and fix or replace.
- ★ Take short showers instead of a bath.
- ★ Install toilet displacement dams.
- ★ Use water conservation landscaping, such as noninvasive, drought-tolerant plants.
- ★ Water plants early in the day to avoid loss by evaporation.
- ★ Run dishwashers and clothes washers only when full.
- ★ Don't purchase bottled water; instead use a filtered water pitcher and reusable water bottles.
- ★ Turn off the tap while brushing teeth or washing dishes in the sink.
- ★ When replacing home appliances, purchase water-saving showerheads, toilets, faucet aerators and washing machines that meet Energy Star standards.
- ★ Collect rainwater for irrigation and other nondrinking water purposes.
